

Due: _____

Career Investigation Project

Pick a career you would like to possibly pursue after high school.

- Explain why you choose this career.
- Research on the internet and/or interview a person in that career.

-You need to find out the following...

a) What kind of education is required?

(Example: 4 year degree, 2 year degree, apprenticeship, etc.)

b) What skills are needed to do the job well? Explain why those skills are needed.

(Example: good at math, organized, creative, etc)

c) How is a person paid in that career?

(Example: paid hourly, salary, commission, tips, etc.)

d) Can you work overtime? If so, how much overtime is usually worked weekly, monthly or yearly?

e) What is the estimated annual wage for a person beginning in that career?

-Also calculate an estimated monthly and weekly wage. (Show work on calculation)

- Answers must be typed and sources must be cited. (Use <http://www.easybib.com> to help you cite your sources.)

Due: _____
